Jordi Palet (jordi.palet@consulintel.es)

IPv6TF 2nd Phase – Brussels, September 12th, 2002

The Initiative

- As a consequence of de IPv6TF (1st phase) and the EC recommendations
- Spanish Science and Technology Ministry decided to support it
- As an open task force
- Limited duration (1 year, May 2003)
- No juridical entity
- Final goal: Document(s) with concrete actions towards the complete deployment
- Kicked-off on 16th of May (key audience)

- 2

Objectives

- Follow EC Recommendations
- Localize concrete recommendations for:
  - Government/administration
  - R & D & innovation
  - Education
  - Industry
  - Users
  - Others …

Participants

- Anyone WILLING to work and cooperate
  - Any entity legally established in Spain
- Including, and mainly:
  - Access an IP providers
  - Telcos (public, private, fixed, mobile, …)
  - Hardware and Software vendors
  - Universities and R&D
  - Public (government) entities related to IP
- OBLIGATION and RIGHT to contribute for all the participants

Working Groups:

- Infrastructures (fixed and mobile)
  - Albura/REE, DS2/Endesa, Telefónica, Vodafone
- Mobility & New Wireless Technologies
  - Agora Sistemas, UMU
- Security & Privacy
  - ACE, UMU
- Next Generation Applications (incl. Home/Industrial networking, GRID's, QoS, Multicast, …)
  - nGn, UPM
- R & D + Innovation & Education/Training
  - Consulintel, RedIRIS

Steering Committee:

- Chair

- Co-chairs (the co-chairs of the WGs)

- Two representatives from Government (MCYT)

- Responsible for QC and edition of executive summary

- Decisions by consensus
  - when no reply → no objection

Work-Plan:

- Recommendations must be technically and socio-economically argumented
- Each WG must also work in:
  - Information Society repercussions
  - Business Drivers
  - Impact on national/regional R&D+Innov. programs
  - New/further studies to work on
- 3-4 plenary meetings (next one 30th September)
- Spanish, mainly via Mail exploders, FTP & Web
- No technical/commercial specs in any document

- 7

Dissemination Activities

- Proactive measures in order to generate inputs and outputs from/to society and industry
- Participation in events and conferences
- Spanish web site
- Coordination and collaboration with other IPv6 and related TF or initiatives
- Open to other mechanisms

"my personal goal": PENTIPv6

- Plan Estratégico Nacional de Transición a IPv6
  (National Strategic Plan for the IPv6 Transition)

SUGGESTIONS ?

Jordi.palet@consulintel.es

THANKS for your attention !
